NOTICE OF MAJOR CULVERT DRAINAGE PROJECT
KINSTER DRIVE

Al R. Roshdieh
Director

October 26, 2017

Dear Resident:

This letter is to inform you of a planned, large scale storm drain replacement project in your area, specifically Kinster Drive in Germantown. This project is being managed by the Montgomery County Department of Transportation (MCDOT). During a routine inspection conducted by MCDOT, it was found that the three existing 96-inch corrugated metal storm drain pipes, located beneath the roadway, were in need of replacement.

The three failed pipes will be replaced with two concrete box culverts. These new box culverts are designed to provide a 100-year service life. The new concrete infrastructure will also improve the flow of storm water. Given the nature of the work, this project will require the closure of a small section of Kinster Drive for an extended period. Weather pending, the project is expected to take **four (4)** months to complete. Please refer to Highway Services website - <http://www.montgomerycountymd.gov/dot-highway/index.html> - for additional information; the status of the project will be updated biweekly. Road closure and detour signs, as well as other construction related activities, will begin in the area in the days leading up to the project. Please follow the posted detours and a map of the detour is attached on the reverse of this letter.

MCDOT has coordinated this closure with the appropriate agencies including the Montgomery County Police, Montgomery County Fire Rescue Services, and the Montgomery County Public Schools, (MCPS). Additionally, MCDOT has coordinated with the appropriate utilities as they must adjust their infrastructure accordingly.

MCDOT will make every effort to expedite the work to facilitate an accelerated completion. Should you have any questions or comments feel free to contact Mr. John Birton, Construction Supervisor, at 240-777-7616 or john.birton@montgomerycountymd.gov.

Once again, MCDOT thanks you in advance for your cooperation and apologize for any inconvenience this project may cause.

Sincerely,

Randy Paugh
Chief of Pavement Management
MCDOT
